M'ADOO ENJOINS SECRECY

WASHINGTON, October 28 .- Steps

WASHINGTON, October 28.—Steps were taken to-day by Secretary Mc-Adoo to prevent information relating to outgoing American cargoes from reaching belligerent nations through agents in this country. The secretary instructed customs collectors as follows:

"Until further directed, you will re-frain from making public or giving out to any other than duly authorized of-ficers of the government information regarding any and all outward car-goes, and the destination thereof, until thirty days after the date of the clearance of the vessel or vessels carrying such cargoes."

Large Proportion of Dead Sacrificed to Save Nearly 300 Others in More Distant Workings.

HOYALTON, ILL., October 28.—The disaster at Franklin Coal Mine near here yesterday, which cost a half bundred lives, was caused by the explosion of a miner's lamp of a pocket of gas located the night before by a mine inspector and marked dangerous. Forty-seven bodies have been removed from the mine, and at least three other miners are missing.

A large proportion of the dead were sacrificed, it is believed, to save the lives of nearly 300 others in more distant workings. Reversal of the air pumps saved 285 miners scattered among the galleries, but doomed those in the zone of the explosion, who were trying to reach the airshaft.

These facts were brought out to-day, when the near-completion of rescue work made investigation possible. The famous blood purifier is a natural medi-cine, it is opposed by those who can not give up mercury and other dangerous drugs. Habit is a strange master. Af-
